## Mill-Pro supplies pipe and fittings for sewerage pipe replacement at Lin Shing Road, Chai Wan, Hong Kong

August 2016

Mill-Pro was awarded the supply of M90S PE pipe and fittings for the sewer replacement at 12 Lin Shing Road Chai Wan outside Wan Tsui Estate and Fook Tsui House.

Dixie Engineering Co Ltd installed the DN 225 (OD 250) pipes and fittings to connect the building owned by Hong Kong Housing Authority to the Drainage Services Departments public sewer.

SDR 17 / SN 24 (Ring stiffness rating) PE pipe requires no side support or concrete encasement even with full vehicle loadings to perform for its 100 year design life, this significantly reduces construction time and costs.

This project used the following Mill-Pro products:

- OD 250 M90S pipe with orange CCTV inspection layer and red brown stripes indicating sewer use
- OD 250 Friatec cast Insitu Electrofusion sliding manhole connector joints
- OD 250 Friatec Electrofusion couplers
- Friamat electrofusion machine
- Friatool mechanical peeler
